Date and Time: 24 January (Thursday) 1900-2030

Venue: Multi-purpose Room 1-2, Flora Ho Sports Centre

Medium of Language: Cantonese

Nutrition is about fueling our bodies. With optimal nutrition, it enhances training and sports performance. This seminar is aimed at U-team athletes who wish to get more understanding about food and nutrition to support their on- and off-field performances.
Apply hands-on diet strategies before, during and after exercise.

Maximize gains from nutrition through food to optimize sports performance.

**Sport Movement Proficiency**

Speaker: Mr. Kenneth Liang,

Background: Health and Fitness Officer, CSE, HKU/ Certified ACSM Clinical Exercise Specialist/ ACSM/ACS Certified Cancer Exercise Trainer/ NSCA Strength and Conditioning Specialist.

Date and Time: 28 January (Monday) 1900-2030

Venue: Multi-purpose Room 1-2, Flora Ho Sports Centre

Medium of Language: Cantonese

Having proper movement proficiency can help athletes improve their movement efficiency, thus making them more economical in their movement with less energy wastage for the same skill execution. This seminar will help you understand how to minimize imbalances due to overuse, which is one of the prime reasons for sports related injuries.

**Topic:**

- Overview of movement pattern training (different from the traditional isolated muscle group training).

- Basic principle of optimizing performance and minimizing injury – find your weak link and balancing the agonist and antagonist groups.

- How to optimize functional fitness and learning progression.
